RIVERFRONT
ANNUAL
EVENTS

The Downtown Kansas City Riverfront is becoming one of the most innovative and sustainable community assets in the region. Comprised of several components, such as Richard L Berkley Riverfront Park, the planned Sustainable Urban Village development, the Riverfront Heritage Trail and the Riverfront West interpretive and conservation-based amenities, the Riverfront is an important link between downtown neighborhoods and these centerpieces of the city's current revitalization. With its visibility, accessibility, picturesque setting and historic past, the Riverfront is a perfect destination for for visitors and residents alike.
